Dear Sailors,

Time is running fast and soon the World Championship will be raced on one of the most challenging waters in Europe even the World I dare to say.

We are proud to be able to present a challenging World Championship and have you visit our beautiful country in the Northern Hemisphere, where the days are long and the sun never sets and the parties will go on and on and on...well sort of.

Please find some general information below and please send you entry as soon as possible to help the organizers to keep the good work going.

Welcome all!!

Marianne Schoke
President SWE-JCA

Race Harbour is not the same as Launch Harbour!!

Please check the NoR and the info on website for directions.

Social Events Schedule**Friday-Sunday 13th-15th**

Measurement and Launching in Limhamn Harbour (Malmö Yacht Club MSS)

Sunday 15th

Opening Ceremony at Malmö City Hall

Monday-Friday 16th – 20st

After Sail, Food and Beverages, Daily First.

Wednesday 18th

MidWeek Party, Big BBQ fest in the Western Harbour, Live Music and other surprises.

Friday 20st

Closing & Prize Giving Party at Malmö Yacht Club (MSS)

Kockums Fritid – Activity Center

Kockums Fritid in The Western Harbour area will be our base during the racing days. The very same base used for the Louis Vitton Act 6&7 at the 2005 Americas Cup Challenge.

This Center has all possible activities for you to use and will keep your Family busy during the event when you are out racing. You will find Gym, Swimming Pool, Sauna, Massage, Ice skating, Bowling and other sports activities there or why not just go to the beach right there in the sailing area.

After Sail activities and the MidWeek Party will be held here as well.

Western Harbour – The Heart of Malmö

The Heart of Malmö and the perfect place to be close to the spectators and the best way to be seen for the Sponsors. You will find many Restaurants and Cafés and the view is magnificent watching the Sound of Öresund.

The Western Harbour is a very small harbor and when we arrive there we will practically fill up the whole place. The sea entrance to the harbor is narrow and therefore it's very important that you respect the directions made in the NoR.

The Western Harbour at the foot of Turning Torso.
